Bluetooth Sportclip

Aluratek

Overview:

Playing your music from a Bluetooth enabled headphones is great, but what about your favorite corded headphones or ear buds? No need to throw them away because now you can Bluetooth enable any corded headphones or earbuds by connecting them to our Bluetooth Sportclip Enabler for wireless audio streaming from your Bluetooth enabled smartphone, tablet or computer up to 33 feet away.

The Sportclip makes for a great work-out solution. The Sportclip comes with an attached clip so you can attach the device to a pocket or shirt. Turn up the volume of your favorite song right from the Sportclip. Accept phone calls - music will pause and resume after your call is concluded. The Sportclip features a LCD screen that displays song title and caller ID.

Features:

- Sportclip design makes for a great work-out solution
- Built-in LCD displays song title and caller ID
- Up to 12 hours playback with the built-in rechargeable Lithium-ion battery
- Supports Bluetooth v2.1 for superior audio quality
- Stream music wirelessly from all Bluetooth smartphones, tablets, and computers up to 33' away
- Works with any phone or device capable of transmitting Bluetooth stereo (A2DP) protocol
